Proudly manufactured in St. Charles, Illinois

AJR Medical™ FMASK-04-50 face masks have three layers for comfort, filtration, and protection and are proudly manufactured in the heartland of America, in St. Charles Illinois. Source with confidence from our second-generation family business with decades of experience producing Class 1 medical products and quality filtration products. FMASK-04-50 ASTM Level 3 disposable face masks are ideal for use in areas with procedures in which moderate to high amounts of fluid, spray and/or aerosols are produced.

FMASK-04-50

Features:

- **Soft and comfortable**

The inner layer is made of a soft nonabrasive fabric that won't irritate your face while wearing and the soft 3 mm latex-free spandex ear loops provide all-day comfort.

- **Secure fit**

The polypropylene covered galvanized adjustable nose bridge is easily shapeable to contour and create a light seal around the face.

- **Efficient filtration**

The inner filtration layer of melt-blown non-woven media assures superior filtration efficiency, >99%.

- **Fluid resistant**

The outer hydrophobic non-woven layer helps to prevent fluids from entering the mask.

- **Sealed packaging**

All masks are offered in contaminant-free poly sealed boxes of 50.

- **Purchase in bulk**

Cartons contain 40 boxes of 50.

- **Temperature range**

-20° to 122°F (-20° to 50°C)

- **Humidity**

Do not store above 80% RH.
